CARLETON COLLEGE

NORTHFIELD, MINNESOTA

DONALD J. COWLING, *President*

DURING the war emergency, Carleton College, with all its facilities of faculty and equipment, has been at the service of the Government in training military personnel for active duty with the armed forces.

LOOKING to the future, Carleton will continue its present curriculum geared effectively to the needs of the post-war world. The College will offer to returning service men and to new students entering from civilian life the broad program of liberal arts studies which it has maintained during its many years of educational service.
